

**NQIT Consultancy Services Pvt. Ltd.**  
**QHSSE Excellence**

## About us

**Based in the India & Africa (India, Gabon), we operate a network of specialist personnel throughout Asia and Africa.**

With an extensive knowledge of the Oil & Gas Industry, our dedicated staff can provide support to ensure your specific technical surveillance requirements are met through our experienced and diligent inspectors. Our aim is to provide flexible tailor-made solutions, whilst providing added value to our clients' projects through discrete monitoring of prescribed manufacturing stages and improved product quality.

Our role is to monitor and inspect materials, manufactured components and products on behalf of our clients as their partner. We ensure that all aspects of the manufacturing process fully meet the client's requirements, ensuring compliance with specifications, applicable procedures, and regulatory standards and codes, by implementing the requirements of the applicable Quality Plans and/or Inspection & Test Plans.

Our mission is to provide a highly professional and dependable inspection service. Working on behalf of various clients across the globe, we have developed a reputation as one of the market leaders in our sector. We pride ourselves on our attention to detail, our highly skilled personnel and the exceptional relationships we build with our clients.

# Why choose NQITCS?

We are extremely proud of the work we do and the positive feedback we receive from our clients.

We attribute our success and strong relationships with our clients to our team's expertise, experience, passion and dedication.

## Expertise

All NQITCS staff possess the necessary industry qualifications and experience. Our Inspectors are qualified in a wide variety of if disciplines from accredited certification bodies.

- **American Society for Non-destructive Testing (ASNT)**
  - ASNT offers NDT certification schemes for individuals leading to qualifications/ approvals in NDT at ACCP Levels 2 and 3 and for companies (SNT-TC-1A)
  - Level III Services available on request
- **International Institute of Welding/European Welding Federation (IIW/EFW)**
  - Personnel holding EWF/IIW Diploma are qualified to perform welding coordination activities as described in ISO 14731, whose compliance is required by BS EN ISO 3834 (Quality requirements for fusion welding of metallic materials)
- **Certification Scheme for Welding Inspection Personnel (CSWIP)**
  - CSWIP provides internationally recognised, role-specific competence for people engaged in welding, joining, materials integrity and inspection in manufacturing, construction, operation or repair of high integrity structures, plant or machinery.
- **Personal Certification in Non-Destructive testing (PCN)**
  - The PCN scheme, an internationally recognised scheme for the certification competence of NDT personnel, is accredited as meeting the requirements of European Standards ISO/IEC 17024 and EN 473, and international standard ISO 9712.
- **BGAS-CSWIP**
  - The system is primarily designed for inspectors involved in one or more of a number of activities related to pipelines. BGAS-CSWIP qualifications are highly regarded pipeline specific qualifications, which complement the well-known CSWIP inspection qualifications. Both are internationally recognised.

# Why choose NQITCS?

Our inspectors have a comprehensive knowledge of numerous internationally recognised codes and standards.

- API, BS EN, ISO, ASME, ASTM, IEC, DNV, NACE, NFPA

This allows us to provide you with the most suitable personnel, based on your needs. To maintain the highest level of customer service, all our personnel are provided with continuous technical training in a wide range of inspection disciplines and technologies.

## Communication

You will be kept fully up-to-date with progress via 'real-time' reports, throughout the entire lifecycle of your project. We aim to provide you with the information you need quickly and simply, in a format that is easy to understand.

## Working together

We will endeavour that all aspects of your expectations are met to ensure the satisfactory outcome of your project. Where equipment is tested / inspected for quality and safety; we will ensure this is carried out in accordance with international standards and regulations.

## Health and Safety

We recognise that Health and Safety is paramount regardless of the size and scope of the project. When visiting your facility our personnel will strictly observe your Health and Safety Executive (HSE) regulations. NQITCS staff WILL NOT compromise personal safety or that of others in their charge.

# Core values and aims

## Service Excellence

NQIT Consultancy Services Ltd embraces team excellence and continuously welcome the challenge to deliver a world class service to our clients. Our ability to provide added value stems from our drive to constantly seek the best talent in the industry. We promote personal and professional development in all aspects of our work, to consistently exceed the expectations of our clients, business partners, and our colleagues.

## Integrity

NQIT Consultancy Services Ltd take pride in doing what is correct and not taking the path of least resistance. We are true to our principles of high integrity, and the trust placed in us by others. We are dynamic, thorough, consistent, and respectful of the challenging time schedules of our client's and partners. We efficiently execute our work and act with professionalism at all times and in every situation.

## Quality

Our customers place a great deal of faith to ensure their product meets the quality requirements stipulated in international codes, standards and specifications. NQIT Services continually deliver a high standard of quality through our Quality Inspectors. The repeated custom and feedback we receive proves we are able to earn customer loyalty, providing them with added project value, and customer service beyond their expectations.

## Consistency

We offer the best mutually beneficial service for our organisation and our clients. Market conditions may fluctuate, our service to our clients and support to their projects are unwavering. Our customers consistently receive a high level of service to ensure that we are not measured on a short term success but rather on the long term relationships we have with our clients.

## Our Services

**We proudly offer a range of professional inspection services.**

Our Multi-Discipline (Mechanical/Electrical/Instrument) quality surveillance Engineers and inspectors can attend sub-contractor facilities to witness and verify inspections and tests, review conduct of special processes, verify critical measurements, validate test results, and assess workmanship to required standards.

NQITCS Engineers and inspectors are available for single visits or long term residential assignments. With Inspectors based and operating throughout Asia and Africa we can respond quickly and cost-effectively to represent our client's best interests on site.

We are also familiar with relevant manufacturing processes, American and International codes and standards, and numerous international non-destructive testing standards.

We specialise in the following areas:

- **ISO 9001, ISO 45001, ISO 14001 Certification**
- **Manpower secondment services**
- **NDT Consultancy**
- **Welding Consultancy**
- **Vendor / shop inspection**

# QHSSE Management and Certification Services

We provide Quality Management & Certification services in various segments - Eg.-Oil and Gas, Power, Steel Plants, Petrochemicals, Aviation etc.

Quality Management and Certification Services includes:

- ISO 9001,ISO 45001,ISO 14001 Certification Support Services
- Internal Auditing , Sub-Vendor Audit, ISO Auditing ,2nd Party and 3rd Party Auditing

- ISO Auditor Trainings
- HSSE Trainings
- Product Realization Trainings
- Standards and specifications interpretation training
- API Trainings
- Preparation of Contract Quality Plans
- Preparation of Inspection and Test Plans
- Manufacturing and Testing Procedures
- FAT and SAT Procedures
- ISO Implementation Support

## NDT & Welding Consultancy Services

Our Consultancy services involve in NDT & Welding Consultancy services.

Consultancy Services can include:

- NDT Level-III Services
- Training and Certification
- Welding Procedure Specification(WPS)
- Welder Qualification(WPQ)

# Vendor / shop inspection

**Our Vendor inspection services involve surveillance activities carried out during the manufacture and testing of our clients products in accordance with an Inspection Test Plan (ITP).**

Our inspections can be carried out at the manufacturers facility or their subcontractors.

Vendor inspections can include:

- Pre production meetings
- Documentation review
- Visual and dimensional inspection
- Procedure qualification
- Heat treatment operations
- Witness and verification of non-destructive tests (NDT)
- Welding and cladding operations
- Mechanical testing
- Painting and coating operations
- Factory acceptance testing
- Final inspection including review of final documentation packages
- Packing and shipping

## Secondment of Manpower

**NQIT Consultancy Services supplies experienced technical manpower to various industrial sectors.**

Our QA/QC Engineers / inspectors are well versed in the processes utilised and specialist testing methods required in the production of materials for the oil and gas and other sector.

NQIT Consultancy services supplies below type of work force.

- QA/QC Managers –Mechanical,Civil,Electrical,Instrument,Welding,Coating,Insultation etc.
- Welding Engineers
- NDT Engineers
- QA/QC Engineers –Mechanical,Civil,Electrical,Instrument,Welding,Coating,Insultation etc
- QA/QC Inspectors –Mechanical,Civil,Electrical,Instrument,Welding,Coating,Insultation etc
- Project Engineers
- Expediting Engineers
- Commissioning Engineers
- Design Engineers
- Planning Engineers
- Cost Control Engineers
